PERU AND INDIANAPOLIS RAILROAD .- By this railroad is the best route from Indianapolis to Toledo, Detroit, Buffalo, Niagara Falls, and all northeastern cities. It will be seen by advertisement in another column that recently there has been a change of time on the road. Along the entire line competent officers and subordinates pay every attention to the requirements of business, and passengers and shippers may implicitly rely on the promises of the Company. The Peru Charter Oak Life Insurance Co., and Indianapolis Railroad is fifty-eight miles the

The Evansville Journal understands that exertions have been made to concentrate the opposition to the old Board of Directors in order to secure the election of new men throughout. Willard Carpenter will be present at the meeting.

PENNSYLVANIA CENTRAL RAILROAD .- All west-

ern railroads connect via Pittsburgh with this direct route to the eastern cities. The road is second to none in the Union, being first class in all its equipments for the transportation of passengers and freight. In fact, its ability and facilities for the transportation of freight are perhaps superior to any other railroad east. We call the especial attention of western shippers to the low rates of this route, and assure them of the dispatch with which their merchandize will be put through. In every particular and in every minute detail the interests of shippers are attended to by the organized corps of employees. Drovers will find it un eligible stock route, making any eastern point accessible without fatigue. W. H. As Mrs. Esther Stansbury, residing in a court running from Race, below Sixth street, was about to bring a bucket of water from the hydrant, last night, she found a basket suspended from the knob of the front door. Putting her hand into the basket, she felt something alive and kicking, so wrapped up in rags that no further discovery could be made without unwrapping the object. A piece of paper, folded like a letter, lay by the side of the animated bundle. Mrs. Stansbury immediately returned into the house, and by the light of a lamp examined the billet. The door of the kitchen was violently thrown open, and his wife's voice yelled out: "Stansbury, come up here, you villain! Here's a mess for you!" The astonished Stansbury hastily obeyed the

Don't be afraid, it won't bite; it's got no teeth, poor thing. You'll know it; for, as the hussy says, it's just like you all over. Please goodness, I'll expose you before everybody.'

In less than five minutes Mrs. S. had collected a room full of spectators-half of the inhabitants of the court—to witness the process of unwrapping the baby. The New Republican Platform.
The Republican papers do not all agree and subscribe to the very profound and elaborate flew platform of principles, adopted and promulgated by the Republican Editorial Convention which recently sat in this city. The New Albany Tribune is reviewing the platform with a dissecting ability which makes this last edition of principles appear considerably incongruous and very unten-able. We think the doctoring of the platform by the convention of the enlightened Republican press did the subject no good—in fact it weak ened and diverged a good ways from the position they have hitherto occupied, instead of occupying more tenable, safe and secure ground, notwithstanding the very able editor of the central organ shed his light upon the convention.

Your heartbroken "Nancy." is irresistible. Is this the position the committee undertake to assume? Perhaps, however, by the phrase "wherever its influence alone is felt," they mean to limit it to the territories, where there are no State Constitutions to conflict with the Federal Constitution. We hold that no State can adopt a Constitution in conflict with the Constitution of the United States. Then if the Constitution or the United States. Before the complaint was read, Judge Russell inquired as to the whereabouts of the prisoner. The officer replied that the lady was waiting in the entry; that himself and two others had endeavored to squeeze her through the door-ways but they were too narrow and he wished the Judge's advice in the premises.

The experiment was tried and found to answer admirably—the door being some twenty feet wide, very little compression was needed, and with a frown of indignation upon her pretty brow, Miss Smith found herself face to face with the Judge, and listened to the complaint, which was read to her.

CLEVELAND FEMALE SEMINARY.—No institution in our city has greater claims upon the contain approbation of the people of city and country than this Seminary. Ohio is now a State of three millions of inhabitants, having a large youthouser grades are excellent and have well fitted the peoples' children for those higher advantages of culture which such Seminaries as this give them. The school has never been so prosperous as during the past year. It had one hundred and sixty pupils, and its success has been owing as much to the high attainments of its instructors and the liberal, ever generous policy of its managers as to the charming surroundings, and the healthfulness of the location of its manificent buildings. No Seminary in the North has more princely arrangements for the comfort of its inmates. The seven acres of lawn, shrubbery and forest; the splendid pile of buildings arranged with every modern improvement for ventilation and a thorough system of instruction, its ranges of airy

thorough system of instruction, its ranges of airy rooms for the boarders, recitation, library, exhibition and concert halls, could not be well surpassed either for beauty or convenience.

That the standard of instruction is of a high order cannot be doubted. Prof. Sr. John is at its head, and his course of lectures on Natural Science would be valuable aids to any college classes in the United States. Miss Gulforn is one of

vigorous movement of which astonished everybody.

"It's full of the devil already," said Mrs. S.; "that shows it's his. You'll soon see that it is it true in point of fact, that the Constitution carries freedom anywhere? If so, certain very able and distinguished abolitionists have sadlike him in everything."

At last all the swaddling clothes being removed, out jumped the baby and made its escape through the open window. It was a big tom cat. Theodore Parker, in his speech at the Tabernacle, New York, denounced the Constitution of the pathorm, the mere very rightly served. We are no sympathizers with free negroes, and if we had our own way there should not be one tolerated any place except in Canada or a slave State; we would not tolerate one in the State of Indiana. Out of slavery a negro is a nuisance, and where they are ever its influence is felt, he would not so denounce it. Theodore Parker, in his speech at the Tabernacle, New York, denounced the Constitution of the United States as a pro-slavery document—and Mr. Greeley complimented the location amongst us. But we started out, not to discuss the free negro question. We started out to talk of our Union township neighbors. For years past they have been so intensely bors. For years past they have been so intensely bors. For years past they have been so intensely American, or rather anti-Democratic, that they would much rather have a free negro for a neigh-bor or a laborer than a German or an Irishman, and the consequence is that the voting population of that township has been gradually falling off as the negroes, who have no vote, bought up the property of the whites, till finally the vote was reduced to about one hundred and twenty-five and out of that only TWO votes were cast-for the out of that only TWO votes were cast for the Democratic ticket three years ago, and only about fifteen one year ago. They have now got an immense negro population down there and the very men who have always been cheek by jowl with them and have denounced the Democratic party for prescribing the poor black, are prowling Judge said that it was an extraordinary case—
the constitution guaranteed to every one an open trial, and he would not hold a session in the entry even to please a lady. Under the circumstances he commended that Miss Smith be removed from the entry to the front door, and he thought that she must spread considerable not to be able to take her place in the prisoner's dock.

The Chicago Daily National Democrat, ably around at nights watching a chance to murder the blacks that they have chosen for neighbors, and the Democrats, who are always on the side of law and order, are compelled to protect these creatures from being murdered by an infuriated mob. Public Meeting of the Business Men of Indianapolis at the Council Chamber, Wednesday. 29th inst.

The meeting came to order at 4 o'clock, P. M Andrew Wallace was called to the Chair, and Barton D. Jones, of the Journal, and Charles P. Baymiller, of the Sentinel, were appointed Secre-

The Chairman stated the object of the meeting tee or not, makes not the slightest difference in to be the taking of steps for the establishment of wholesale dry goods houses in the city. The purpose was to induce thorough going men of capilikely right. tal in the city to engage in the jobbing business. If we could induce gentlemen at home to embark in the business, it was our duty to encourage them. Citizens at home had, of course, preference over gentleman from abroad. The end sought was the concentration of trade here in all its departments.

Several gentlemen being called upon, stated that it was the universal complaint of merchants throughout the State that, although they could buy their grocerics, boots, shoes, hardware, &c., In Indianapolis, they could not buy dry goods. They were, therefore, compelled to go to other cities to lay in full supplies. These were the statements of Messrs. Stewart, Roberts and others.

Mr. Taylor said it was manifest that Indianapolis was destined to become a large commercial, as well as manufacturing city. We had every facility to make this one of the foremost cities in the West. It was the center of radiating railroads, and was in the heart of a great and prosperous State, and surrounded by a vast and fertile region. One step towards this great end was the establishment of Wholesale Dry Goods

The President, on motion, appointed the following gentlemen a committee to draft resolution to be reported at a subsequent meeting, viz : Messre, Stewart, Roberts, Root, McKernan, and

Messrs, Drum, Taylor, and Root. It was resolved that the committee to draft resolutions meet at the store of J. J. Drum, West house Third and Walnut, Cincinnati, Ohio. The Political Text-Book or Encycle pedia.

We have received a copy of the above named valuable work from the author, and we fully concur in the following notice of it by the Washington Union. It contains a large amount of valuable information upon the leading political topics of the day in a convenient and referable shape. and should be in the hands of all who are called upon to express opinions thereupon. It is a compendium of facts upon those questions, alphabetically arranged, and which, to arrive at in original documents, would require a great deal of labor and time. The advertisement will be found in another column :

We desire to call particular attention to the advertisement of Mr. M. W. Cluskey, in another column of our paper, concerning his new political Text Book, now offered for sale. Mr. Cluskey kindly placed upon our table a copy of his work as soon as it was issued from the press. We have had ample time to examine it, and several occa sions to refer to it for information. We unhesi tatingly pronounce it one of the most convenient and useful books of reference that we have ever

It will be recollected that Mr. Cluskey prepared a book for the last Presidential campaign, which he called the Democratic Electoral Hand-Book, and which was used to great advantage in the canvass throughout the country. Indeed, the great popularity and utility of his first work, and the constant calls for it, ever since the campaign has been ended, have suggested the plan and the preparation of this second one. His last work is very complete. He has re-arranged the whole matter of the first work, thrown it into the encyclopedia form, added an immense amount of mat ter, made a copious index to the work, by which anything wanted may be found in a moment, with clear and ample explanatory notes of his own by which everything obscure is rendered plain and

To the politician, the editor, and all who desire information on the leading party measures and topics of the times, this book will be found of the eatest convenience and value. The author has rformed his task with decided judgment and ability, and we trust that he will meet with a corresponding remuneration for his labor.

THE CALLIOPS.—This singular instrument, the music of which can, it is said, be heard at the distance of ten miles, will enter the city, drawn by an extraordinary team of forty horses, at the head of Nixon & Kemp's Mammoth Circus, on the 8th of August. A sensation may be expected on the occasion. The show will undoubtedly be a good one, as the company numbers some of the best names in the lusiness. No better clown than best names in the business. No better clown than Kemp ever set foot inside of a ring. Previous to the afternoon performance a wonderful feat of wire walking, by the celebrated Madame De-Bach, who ascends a wire from the ground up outside the pavilion to the top of the center pole, will take place. This performance can be witnessed without charge by all who are on the ds at half past one o'clock.

We find in a Lynchburg (Virginia) paper an amusing account of a Fourth of July celebra tion by the "Hyena Club," at Hog Island, near that city. Among the toasts drank on the occasion is the following, purporting to have been given by a "Hyena," who rejoices in the euphonic title of "Mr. Buggius Wafficks:

Such as Indigestion, Acidity of the Stomach, Cholicky Pain,

Blind and Bleeding Piles. In all Nervous, Rheumatic, and
Neuralgic Affections, it has in numerous instances proved
highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly
scientific principles, after the manner of the celebrated Holland Prof. Boerhave. Because of its great success in most
of the European States, its introduction into the U. States
was intended more especially for those of our fatheriand
scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it
to the American public, knowing that its truly wonderful
medical virtues must be acknowledged.

It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to the seatlife, thrilling and quickening every nerve, raising the drooping spirits, and, in fact, infusing new health and vigor in the
system.

Headache, Sick Headache, Foul Stomach. PITTSBORG, Pa., May 1, 1855. DR. J. C. Aven. Sir:—I have been repeatedly cured of the worst headache anybody can have by a dose or two of your Pils. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Six:—I have used your Pills in my general, and heighted practice ever since you made them, and cannot hesitate to say they are the hest cathartic we employ. Their regularing action on the Teter is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of billious discusses so obstinate that it did not yield to them.

Da. Aver. — Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went of to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

Erysipelas, Scrofula, Kins's Evil, Tet-ter, Tumors and Salt Rheum

From the Rev. Dr. Hawkes, of the Meth. Epis. Church.
PULASKI HOUSE, SAVANNAH GA., Jan. 6, '56.
HONORED SR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SEMATE CHAMBER, BATUN ROUGF, La., Dec. 5, '55.
DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afficted me for years.
